TOWN WARRANT

State of New Hampshire

Carroll ss.

To the inhabitants of the Town of Conway, County of Carroll
qualified to vote in Town Affairs:

You are hereby notified to meet at the Kennett High School Audi-
torium at Conway, New Hampshire, March 13, 1956, at nine
o'clock in the forenoon to act upon the following subjects:

Article 1. To choose all necessary town officers.

Art. 2. To see what sum of money the town will vote to raise
and appropriate for the following purposes:

Section a. Town officers' salaries

b. Town officers' expenses

c. Election and registration expenses

4. Municipal Court expenses

e. Expenses of Town Hall and other town buildings

f. Police department

g. Fire department

h. Insurance

i. Civil Defense

j. Health department

k. Vital statistics

l. Town office expense

m. Town dump

n. Town maintenance of highway, summer and winter

o. Libraries

p. Town poor

q. Old age assistance

r. Memorial Day

s. Soldiers' aid

t. Parks and playgrounds

u. Damage and legal expense

v. F.I.C.A.

- w. Interest on temporary loans and bonds
- x. Payment on bond issue
- y. County tax

Art. 3. To see if the town will vote to raise and appropriate the sum of \$100 for the purpose of mailing inventory blanks to all taxpayers on the property warrant records.

Art. 4. To see if the town will vote to authorize the Selectmen to distribute the blank inventories at the time that they take their inventory of Head and Poll taxes.

Art. 5. To see if the town will vote to authorize the Selectmen to hire upon the credit of the town such sums of money as may be needed. Such sums not to exceed the combined School, Town and County tax budget in anticipation of taxes raised for Town, County and School purposes.

Art. 6. To see if the town will vote to adopt the Town Manager plan as provided by Chapter 37 of the Revised Statutes Annotated. Agreeable to a petition signed by Charles V. Sturdivant and others.

Art. 7. To see if the town will vote to raise and appropriate the sum of \$5,500 to build a new bridge to replace the twin bridges near Pumpkin Pine Lodge in Kearsarge.

Art. 8. To see if the town will vote to raise and appropriate \$1,041.22 for Town Road Aid with the State contributing \$6,941.44 and to see if the town will raise and appropriate \$4,540 for Class IV Urban with the State contributing \$4,540.

Art. 9. To see if the town will vote to install a traffic light or lights at the four corners in Conway Village, and if so, what sum of money they will vote to raise and appropriate for the installation of such traffic light or lights.

Art. 10. To see if the town will vote to raise and appropriate the sum of \$1,000, \$500 for the information booth for North Conway Village, and the sum of \$500 for the information booth for Conway Village, and to pay said sums respectively over to the North Conway Chamber of Commerce and the Conway Chamber of Commerce for the purposes of the expense of each such information booth respectively. Agreeable to a petition signed by Joseph F. Costello and others.

Art. 11. To see if the town will vote to raise and appropriate the sum of \$500 for the information booth for North Conway Village, and the sum of \$500 for the information booth for Conway Village and to pay said sums respectively over to the North Conway Chamber of Commerce and the Conway Chamber of Commerce for the purposes of the expense of each such information booth, respectively. Agreeable to a petition signed by Henry B. Hill and others.

Art. 12. To see if the Town will vote to raise and appropriate the sum of \$500 to the White Mountains Region Association for the purpose of issuing and distributing printed matter and advertising and otherwise publicizing the advantages of the Town in cooperation with the other forty-five towns in the Region. Agreeable to a petition signed by Ralph L. Grindle and others.

Art. 13. To see if the town will vote to re-appropriate the sum of \$10,500 as raised and appropriated under Article 13 in last year's warrant for the proper drainage of Mechanic Street, North Conway Village.

Art. 14. To see if the town will vote to raise and appropriate the sum of \$500 to defray the cost of perambulation of town lines.

Art. 15. To see what sum of money the town will vote to raise and appropriate for the repair of the wooden covered bridge crossing the Saco River on Route 16A at Conway Village, including all repairs and/or reconstruction necessary to put said bridge in good condition for travel and use.

To instruct the Selectmen to repair and/or reconstruct the wooden covered bridge crossing the Saco River on Route 16A at Conway Village in all respects necessary to put said bridge in good condition for travel and use; and to authorize the Selectmen to apply for and receive any and all moneys that may be or become available from the State Government to assist in defraying the expense thereof. Agreeable to a petition signed by C. Elmer Chase and others.

Art. 16. To see what sum of money the Town of Conway will vote to raise and appropriate to assist in maintaining the Memorial Hospital at North Conway.

Art. 17. To see if the Town will appropriate Four Thousand (\$4,000) Dollars, and authorize the Selectmen to expend the same for an engineering study of sewerage and sewage treatment requirements in Conway Village with a view to simplifying the system proposed by the 1949 study prepared by Fay, Spofford & Thorndike, Consulting Engineers, Boston, Massachusetts, and reducing the capital costs involved therein. Agreeable to a petition signed by David B. Schurman and others.

Art. 18. To see if the Town will vote to discontinue the old highway from Webster Cemetery to Mrs. Doris Cook's.

Art. 19. To see if the Town will vote to discontinue the old highway from the railroad crossing on Fryeburg Road back to the new road.

Art. 20. To see what sum of money the town will raise and appropriate toward the support of the Eastern Slope Region, Inc. Agreeable to a petition signed by Robert E. Duncan and others.

Art. 21. To see if the town will vote to have the State Auditors audit the town books each year until this vote is rescinded at some future town meeting.

Art. 22. To see if the town will vote to accept the James Davidson Cemetery Trust Fund of \$1,000.

Art. 23. To see if the town will vote to accept the John Porter Davidson Cemetery Trust Fund of \$500.

Art. 24. To see if the town will vote to widen Main Street in Conway Village from the bridge near the Heel Mill to the junction of NH Routes 16 and 113.

Art. 25. To see if the town will vote to appropriate a sum not exceeding \$94,420. for the purpose of making improvements to the following within the town:

Conway Main Street, end of concrete to Junction of New Hampshire 16 and 113, North Conway Main Street from Grove Street to River Road, such sum to be raised through the issuance of bonds or notes under and in compliance with the provisions of Chapter 241 Revised Statutes Annotated, and to authorize the Selectmen to determine date and place of payments of such bonds or notes and to determine the rate of interest thereon, and to take such other steps as may be necessary to negotiate such bonds or notes as shall be to the best interests of the Town of Conway.

Art. 26. To see what sum of money the town will vote to raise and appropriate for remodeling the present town office.

Art. 27. To act upon any other business that may legally come before said meeting.

Given under our hands and seals at Center Conway, N. H., this 24th day of February, 1956.

GEORGE E. DENSMORE

MILBURN F. ROBERTS, Treasurer
Conway Library Trustees

REPORT OF LIBRARIAN

To the Citizens of Conway:

The following is the report of the library activities for the past year. Adhering to the plan established a year ago, we have again endeavored to work closely with the schools as well as the reading public — giving again shelves for display of the current book reports, as well as making exhibits of special books and pictures pertaining to the units being studied. The support of the teaching faculty has been splendid.

For the general reading public we have tried to have the most noteworthy of the current fiction and non-fiction, plus a good supply of reading of a lighter vein for those who read, “just to relax.” We have borrowed, very frequently, from the State Library at Concord — a service which is ours for the asking.

There have been twelve exhibits, four Story Hours, several visits from the schools — as groups — for instruction in the use of the catalogue, library tools, etc., plus two groups who come regularly with their instructors for supervised selection of books.

Last summer two innovations were begun. A Summer Reading Club was organized for the elementary school readers. It proved successful and plans are being formulated for another club next year. It was deemed a convenience for the public to open the library one morning a week during the summer months, and Friday morning was chosen. Circulation warrants the continuing of the practice another year; in fact, in comparing circulation records for 1954 and 1955 it was found that in 1955 there were 1,274 more books circulated than in 1954. These figures seem to explode the current line of thought that television has taken the place of reading. To quote one young reader, “Nothing takes the place of a good book.”

A fine gesture, which seems to be growing, is the giving of so-called “Memorial Books” to the library. This library received, this last year, instructions to purchase and place on the shelves twelve books in memory of friends of the library. It is a way of perpetuating the memory of a friend, which is not to be overlooked. Gift books from the library of the late Ellis W. McKeen, Mr. and Mrs. Scott Simpson, Mr. James Simonds, Mrs. Ira Glackens, and several others have been received. By the will of Mrs. Josephine W. Pendergast several framed copies of the “Old Masters” were acquired.

In the late spring, Mrs. Henry Towle came into the library as assistant. She, with Ann Reny, a high school trainee, have made up our staff. For your support in making this a truly working library we are grateful.

Respectfully submitted,

PERSIS H. BERRY,
Librarian.

REPORT OF POLICE DEPARTMENT

The Conway Municipal Court handled a total of 198 criminal cases exclusive of juvenile matters in 1955. Seven cases of a serious nature were bound over to the Superior Court. The remaining 191 cases included 141 motor vehicle violations, the balance of 57 being the usual misdemeanors such as assault, larceny, non-support, etc.

The Conway Police answered 289 calls for assistance. Seven persons were taken to the County Jail in Ossipee for offenses such as A.W.O.L. from the Services, assault, drunk and disorderly conduct, etc. This Department investigated a total of 70 accidents. Sixty-three of them were over \$50.00 damage, the rest were of a minor nature under \$50.00 damage. This department assisted the State Police on different occasions and was instrumental in contacting them and standing by on the fatal accident in Chatham this past year. That is a case where the two-way radio proved very essential. Numerous warnings were given for improper operation of motor vehicles and in some cases a summons was given when a warning failed to be heeded. Prowl car service was used very effectively as it afforded broad coverage and kept things under control on the side streets as well as on the main streets. The way the town is situated it is desirable to have this type of coverage, especially so in the North Conway area.

The police settled many disputes and disturbances and many calls were received after 2 o'clock in the morning. Finger prints were taken for persons joining the service. Character checks were also made.

Sixty-nine transients were lodged in the Police Station overnight and a few were given meals if they had no money.

The Police Department helped many motorists in distress. Providing gasoline at night was frequently requested and in many cases gasoline and booster batteries were taken to autos stranded on the highway. Urgent messages were delivered by this department when they could not be delivered by phone. Courtesy tags were issued for many minor infractions of parking. Defective equipment tags were given to many motorists for improper functioning of tail lights, headlights, muffler, etc.

Other than regular duties of patrolling and keeping an eye out for fires late at night, especially in cold weather, there are such other duties as reporting the road conditions to the road agent and to the State Highway agent when conditions are hazardous and need attention. Police duty is required at Town Meeting, parades, funerals, during the resurfacing of roads, and for traffic duty during the ski season.

As this year marks the end of my services as Chief of Police, I want to take this opportunity to thank all my fellow officers, State, county and local, for their assistance in the years past and to wish my successor the very best of luck.

JOHN P. ROBERTS,
Chief of Police

LETTER OF RECOMMENDATIONS

Audit for Year Ending December 31, 1955

Town of Conway, N. H.

by

LUCIAN D. STACY and L. RAYMOND AMBROSE

Auditors

Conway, N. H.

February 24, 1956

To the Officers and Citizens of the Town of Conway:

Under Chapter 59 of the revised laws of the State of New Hampshire, Town Auditors are required to carefully examine accounts of all town officers handling money, and "report to the town whether the same are correctly cast and well vouched." This has been done for many years and we intend to provide you with a report which will comply with the law in this respect. This was the type of report given you by the State Tax Commission in their audit for the year 1954.

Such a report verifies the mathematical calculations, checks the distribution of purchases and expense, and certifies that there were no unauthorized disbursements, but with the passing years and mounting expense in every department, we rightfully expect more than this from our auditors. We deserve and should get more than a simple OK from them because we all demand efficient town services from every department, and this at a minimum expense.

From long experience in the field we are convinced that an audit report without well-thought-out recommendations is worthless. Even then, if it shows the least bias, slant, or personal feelings, it becomes open to suspicion. With these considerations in mind we furnish you with our findings. We personally feel that we have a duty to the townspeople of Conway, and that we would not only be lax for us to neglect it, but that it would be unethical for us to fail in this duty, however disagreeable it may become to us.

Since this part of the report is a departure from the custom of prior years, and feeling that perhaps some of our citizens might with good justification question parts of its content with regard to recommendations, this letter section is being contributed at our own expense, and it will not become a cost to the town of Conway. The following paragraph illustrates this point.

The sum of \$300.00 appropriated for auditors is insufficient to cover the cost of work which should be done yearly. The Tax Commission charged you \$817.59 for work done in 1955, though the invoice split this up into \$514.72 for 1955 and \$302.87 for 1954. It sounds smaller this way, but their balance sheet did not show a

1954 liability for \$302.87. At any rate 1955 auditing work cost you \$817.59, and not a smaller amount. We recommend that you appropriate at least \$800.00 for 1956.

The first consideration is simply this! The operation of the town of Conway is big business. Men responsible for the expenditure of \$734,366.07 per year are carrying a big burden, especially when we remember the thousands of smaller items which go to build up this amount, and yet in every instance we expect them to make the wise decisions which let us get the most for the least money. We believe in the honest intentions of every man at present included in your list of town officers; we know they are working hard for you and that they mean to do right, but they are working under such tremendous handicaps, that it is often surprising they are able to do as well as they do. So instead of condemning these men roundly for miscalculation or failure, we believe that you should first remedy those conditions which contribute so largely to poor management.

It is not within the scope of this report to advise you with regard to the Town Manager problem, but we will say that no matter whether you continue with your Selectmen as at present or choose to change to the Town Manager system, you can never have really good town management without the three essentials we are about to name.

(1) You must have more space in your town office than at present. The Selectmen's clerk can never work to advantage without a small room separate from the main office where she will be free from constant interruption. Again, it is most important that the Selectmen have a small private office where all the intimate problems could be discussed with those persons concerned in private, and not before an audience in the main office as they are compelled to do now. Each individual taxpayer's business is and should remain private. Furthermore, closer attention could be given to all phases of purchasing and expense.

(2) You must renovate your filing system or install a new one adequate for the needs of today. Instead of depending on the old style compressor files and filing vouchers numerically, we think you should have modern four-drawer filing cabinets, then file by name or nature of expense. It is the only way special types of information can be available during the year when it is needed most for cost control.

(3) You should authorize expert accountants to go over your accounting system, make suggestions for the simplification of work, schedule procedure, set up the few additional simple accounts and books in such a way that your officers will not only be informed during the year, but that the preparation of year-end reports will be less costly and time-consuming. We recommend further, that instead of having your auditors do all their work at year end, you instruct them to make such periodic visits to the town office as they deem necessary with the purpose of discovering errors when they occur, and making recommendations for simpler or more complete work.

With your tolerance at what may seem to be repetition, we again want to emphasize that no matter who your servants are, no matter how honest, how capable, or how conscientious, you can never have top-notch government without removing these three stumbling blocks.

The biggest part of our tax dollars go into highways and schools, but since the school department has its own auditors our work reviews the other activities of the town. In prior years, highway expenses have been split up two ways only, as between summer and winter. This was not sufficient in the way of information to enable anyone to judge whether or not a saving might have been made. At the urging of the budget committee a somewhat more detailed summary is presented in your town report. However, the fact remains that this year, as in past years, the highway account contains a great many items which could well be further classified if they are to yield all the details the voters should know.

We believe that the town garage should be treated as a separate operating unit as it would be in private industry, and that all these garage expenses should be segregated and not simply charged to the general highway account. Burden rates should be set up so that when a repair job is done for the school district, as it frequently is, they could be billed at a cost which would include all items of expense and not merely direct labor and parts. A proportional share of insurance, electricity, heat, telephone and all other expenses composing general garage overhead should be included also if the charge is to bear any relation to the actual cost involved. Again, if we do not know burden rates for work done here, how can any man decide when it is time to stop repairing a truck and trade it in for a new one?

Depreciation tables should be set up charging off trucks to expense each year during their useful life so that the truck expense would not be inflated in any one year due to the purchase of new trucks.

Under the present system your garage mechanic is responsible not only for repair and maintenance work on trucks, but also for the purchase of parts and supplies. We think that he should also be given the added responsibility of accounting for all the gasoline used from town pump. In the past he has had not only his garage duties, but he has also been obliged to shovel snow, do carpenter work, be a general utility man, but run errands as well. Our suggestion is, therefore, that first he be provided with a modern purchase control system to simplify his book work. Second, that instead of expecting the man to supply many of his own tools as he does now, that the town supply and own all the necessary tools and make all the needed replacements. Thus, while we recommend enlarging his responsibility in one respect, we advise relieving him of other miscellaneous duties where his skills are wasted, and assign them to an unskilled man.

Your road agent is another very important officer because he is often compelled to make the choice between spending enough money to do a good job or spending a smaller amount on patch-up work. Here, as in every line of business, a patch-up job is generally more expensive in the end. It happens, however, that sometimes your agent is prevented from following his best judgment as in 1955 when he was forced to postpone necessary work because funds were withheld or denied, and it is most unfair under these circumstances to blame the agent for failure to do the needed work. During the past year \$29,141.21 was spent for labor alone in the highway department, and your agent has to see that we get a dollar's worth of work for each dollar of wages.

This money can buy the most work only by advance scheduling of jobs so there will be an absolute minimum of wasted or idle time. The suggestion that we are paying now for idle time cannot be cast aside easily because its existence has been acknowledged by the agent. There is no way for your auditors under the present set-up to give you figures on this as no effort has been made to record or total it, but it is a problem that must be solved either by cutting down on the number of permanent employees, or putting some of them on a part-time basis if better work scheduling is not the complete answer.

It is hard for us to understand how a road crew could get in as much full time during the year as they are being paid for because we not only have several important holidays, but also a good deal of stormy weather during the year when men just do not work outside to advantage. It was explained that there was plenty of work about the garage and other places to keep these men busy, but we think it was fair for us to assume that this was non-productive employment.

During the year \$8,113.83 was spent for the use of hired equipment divided between 13 different suppliers, the records showing that \$6,213.80 of this money went to Quint & Son who furnished more equipment than others used on the different jobs. If the price per hour of use was satisfactory, and just as long as it continues to be realistic, we believe it would be a big mistake for the town to buy equipment for which we have only a limited use. Proper advance scheduling for the best use of this equipment is even more important here than it was with highway labor.

Another of the duties of your road agent is the completion of the road crew payroll each week, and we are told that this duty is prescribed by law. Inasmuch as the agent is frequently called away from the job as when he divides his crew and may have two or three jobs going at the same time, we suggest that money could be saved in payrolls if we would require each man to be personally responsible to the agent and submit to him a written time card at the end of each day's work showing the starting and stopping time. The employee should list the nature of the work on which he was employed as well as all his idle time.

The merit of this suggestion lies in the fact that we not only hold the agent liable for the correctness of total time paid for, but we hold the individual men liable jointly with the agent. Moreover, we succeed in accounting for idle time and have the basis for job expense distribution.

As there may be a misunderstanding in the matter of protective clothing for road men we ask that the matter come to your attention for action. These men are now using boots, hats and raincoats left over from some construction crew, with the exception of a raincoat purchased for this use during 1955. Is it, or is it not, a vote of the town to furnish these things, or may their purchase be authorized without a vote.

Your auditors are convinced that too little care is given in the acceptance and approval of purchase invoices, and this applies to all departments of your town, not to the highway division alone. There were a good number of instances where with the invoice being lacking, the clerk was directed to write one up to support the issuance of check in payment. If the payee did not or could not do this himself, it was because of a good reason, but we found too many of these where we felt that there was no good reason. It is poor practice, and if it is allowed to continue, it is just one more loophole where any dishonest person could get away with money not belonging to him rightfully.

There is one instance of purchase laxity we deplore, and that is in the buying of automotive parts for repair work. Although we are told this is customary in the trade we still object most strongly, and can see no reason why the town of Conway cannot require suppliers to invoice the parts used by name instead of number. If they want to retain the numbers for the control of their own inventory we do not object, but we must insist for our own protection that the name be shown as well.

This same failing crops up elsewhere as in the purchase of tar for which we paid \$15,975.50 last year. The road agent or even one of his crew may sign the delivery slip, which may or may not include the temperature of the tar as it was pumped from the storage tank into the delivery truck. When the gallonage for which we pay is based both upon weight and temperature, we must have both figures for computation of the charge, or failing that, recognize that the invoice may be either too high or too low. We found one invoice where we reacted strangely, one invoice for four loads of tar totaled exactly 90,000 pounds in weight. True, this might have been a coincidence, but if so, it is a rare one.

Rather than comment any further on this phase of our audit and risk boring you with detailed instance, we assert that while we do not accuse any particular person of gross negligence, we do assert that the laxity is present, and by all means it should be corrected.

The lowest paid man on your road crew gets \$1.25 per hour for his labor, consequently \$1,500.00 per year for the Selectman's job

may seem enough money in the opinion of some people. But, any man elected to this office on his qualifications and expected to assume the responsibilities that goes with it should certainly rate more money than a job without any more liability than to do an honest day's work. If the pay could be increased, and based strictly upon the number of hours worked, possibly more qualified candidates would enter the field. This year two of your board members worked seriously and long, found that they had overdrawn their salary, made a refund in full to the town, but nevertheless continued to work just as hard and just as long, without hope of receiving even the \$1.25 per hour. Such an attitude is commendable.

As a group, your Selectmen, just as in any public body, have a tendency to "pass the buck," putting blame elsewhere for embarrassing questions or situations. Taxpayers blame the Collector, the Collector blames the Selectmen, the Selectmen blame the Tax Commission. Too often inquiries are met with the answer, "Nothing can be done about it at this time." We contend that where relief is granted on any type of complaint, the relief should automatically be granted to others in the same category as in the case of poll tax and property tax exemption for veterans' widows. When it was found bowling alleys were non-taxable, owners of all alleys should have gotten an abatement. Persons applying for 1953 and 1954 abatements should not have been told, "Nothing can be done," in the light of all the cash refunds made for prior years in 1955.

Actually 162 checks were issued during 1955 for 1953 and 1954 abatements, every one of these on orders from the Tax Commission. Eighteen other checks were issued for the same purpose on which we failed to locate Tax Commission orders, some of these for a substantial amount, and for which as yet we have failed to determine the reason. Total of all cash abatements refunded was \$12,295.62. Our study to date leads us to believe that the individual members of the Tax Commission themselves recognize that considerable inequity still exists as a result of the 1954 re-appraisal and just so long as this situation is allowed to remain uncorrected here in Conway, then just so long will the Tax Commission be likely to issue a list of yearly adjustments. It is a most unfortunate fact that the Tax Commission, like our own Selectmen, often gives relief to the complainants, but does not automatically give like relief to non-complainants.

After once paying for a Tax Commission re-appraisal in 1954 we still have the same problem because what we got was only a shifting of burdens and not a factual listing of values. More information on this subject will be given to interested parties.

Except for emergency relief requiring immediate action, the law requires that persons receiving town poor aid must have a settlement in Conway. A mere statement by the applicant that they have a settlement in Conway is not sufficient grounds for granting relief. A sworn statement is required before an officer authorized to adminis-

ter oaths. The selectmen are further obligated to investigate not only the person's needs, but also the legality of his settlement claim, and they cannot as they have in the past, rely on information furnished them by the Welfare representative. They cannot delegate this authority to others any more than they can entrust somebody else with their authority to assess taxes. The law with respect to the admission of persons to the town poor list has not been complied with, and we could locate affidavits from only three persons, none of which would meet the test as to statement, signature and oath. The number of persons receiving town poor aid and soldiers aid totaled 48.

The limited investigation we have undertaken to date confirms our first guess that ineligible persons have asked for and received aid. A thorough-going analysis is indicated here as a necessity.

After a person is once admitted to the rolls, little formality is observed because expense checks are made out regularly once each week, with apparently little effort being made to check the continuance of the need, so unless the applicant voluntarily asks to have the aid stopped, it may continue indefinitely. Probably only a few persons are unsympathetic with needy people or would like to see aid withheld from those overtaken by misfortune, but it must be made clear that whatever the degree of need, only minimum aid should be given. As proven to us so eloquently in examining paid invoices, not just one time, and not just one person; the aid rendered has been enough to buy food in the highest price class, so clearly this is not minimum aid. The selectmen are negligent in their handling of town poor.

Charges to the town for old age assistance are paid regularly as a matter of form, but we think these should bear just as close scrutiny as the town poor lists, the reason being that applicants must meet the same settlement requirements, always remembering that the Welfare case workers would naturally be chiefly anxious to add the person's name and not particular what town would accept the load as long as it was within the State. A good many times, too, a careful study will show it possible to shift the weight to the County, State, or agencies of the U. S. government, thus materially reducing the load on the town. The cost of assistance to the aged ran \$13,662.35 this year or about \$800.00 less than the year before, but due to the longer life span today, the list is bound to increase over the years even with continuing business prosperity. If money becomes harder in the future than it is now, the list will increase out of all proportion to the slump in business, so this problem will become more and more personal when we see it reflected in increased taxes.

Our best information is that some of our town officers are being paid mileage to and from the town office to their homes, also that once in a while they are being reimbursed for dinner costs while in town. We do not question the right to either mileage or meals when out of town on official business, but we do suspect that within our town limits, except for unusual cases, such expenditures are unauthorized.

In the statistical section of this report you will see that we have combined town officers' salaries with their fees, so that particularly with reference to the combined office of Town Clerk and Tax Collector, you will know how much the job pays. Since we had two Collectors this year, we must add their combined salaries and fees to arrive at the job total of \$3,821.30, making it outside of the garage mechanic and road agent, the best paid job in town service.

The Collector's report shows that he has been successful in collecting 92.15% of the property, poll and yield tax warrants to Dec. 31, 1955. If we reverse our terms and state the amount of uncollected taxes separately, the outlook is not so favorable. Uncollected polls amount to 20.07% of the total warrant committed to the Collector, head taxes 20.48% and yield taxes 42.50%, indicating that while a good average was made in the property list, more effort should be used to bring in the polls, heads and yield. If your collector fails to collect all the \$2,265.00 in outstanding heads, or have them abated, then we must pay the state in full this spring, and the money paid from our general funds must come back in taxation.

Any real audit discloses information of the nature of the facts outlined above; we feel we would not be doing our full duty if we failed to make these facts available to you. You are in a position to evaluate them, then take such action at the town meeting as you deem wise in the interests of better government.

Other than laxity and simple negligence which is found in every organization regardless of its type or size, your great problems are those listed in the three essentials (the numbered paragraphs) given previously in this report. Just as long as you continue to impose these handicaps on your town officers, you will fail in getting good government.

If in bringing these matters to your attention we succeed in getting action, then we can feel that our effort has not been in vain.

REPORT OF FOREST FIRE WARDEN

Woodland Litter, when dry, is highly inflammable and fires can quickly get out of control. We request your cooperation to control all fires so that lives and property may not be endangered or destroyed, and forests be kept green to furnish the natural beauty we all enjoy and to grow timber we will need.

WHAT IS "WOODLAND"?

The term "woodland" is defined by law to include, "cut-over land, slash and such other land as bears a sufficient amount of good growth, wood, weeds, grass or other growth as to be likely to be burned over."

When in the woods, you are expected to exercise caution in the use of fire and to remember that

IT IS UNLAWFUL TO

Throw down lighted matches, cigarettes, or other burning substances from vehicles or otherwise.

Burn brush, rubbish, grass or other materials when the ground is not covered with snow, without written permission from the Forest Fire Warden.

Kindle a camp or cooking fire on land of another without permission from the owner or his agent.

Leave an open fire burning unattended.

Fail to report a forest or brush fire that is out of control.

VIOLATORS ARE SUBJECT TO THESE PENALTIES

Anyone letting a fire escape from control whether or not he has a permit to kindle the fire, is liable for the costs of extinguishing the fire.

Anyone found guilty of dropping inflammable material in or near woodland shall be fined not more than \$25.

A person failing to report an uncontrolled brush or forest fire is liable to a fine of not more than \$10.

For kindling a fire in woodland of another without permission of the owner, or for kindling any fire without a permit when a permit is required, a person may be fined not more than \$200, or imprisoned 60 days.

DAMAGES

Every person who shall set fire on any land, that shall run upon the land of another, shall pay to the owner all damages done by such fire.

BE SURE — GET A PERMIT

Incinerators should be tight, with a close mesh screen, and be on clean ground.

Open fireplaces used to burn rubbish are classed as incinerators.

Always clean a space about an open fire to prevent its spread.

Never burn in dry, windy weather.

Have incinerators inspected by the Forest Fire Warden and get his written permit.

Number of permits, 76; number of fires, 4; acreage burned, 5½.

PROCEEDINGS IN ANNUAL SCHOOL DISTRICT MEETING, APRIL 2, 1955

Agreeably to the foregoing Warrant the Annual Meeting of the School District of Conway was called to order at 4:00 p.m. on April 2, 1955 at Kennett High School by Burnham B. Davis, Moderator, who read the Warrant, Certificate of Posting and oath of the School Board and David Appleton and the certificates of the check lists and oaths.

The polls were declared open and proceeded to vote by ballot under Articles 1-6 inclusive. At 7:00 p.m. proceeded with the remaining Articles of the Warrant while continuing to vote under the first six Articles.

Under Article 7. On motion of Mr. Furber it was voted: Resolved: That the sum of \$270,902.48 be and hereby is raised and appropriated by the District for the support of schools, for the salaries of school district officers and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the State Foundation Aid Fund, tuitions, together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriations, which balance is to be raised by taxes by the town.

Under Article 8. Mr. Grindle moved the adoption of the following resolution: Resolved: That the sum of \$5,000.00 be and is hereby raised and appropriated by the district for the purchase of a new school bus. The motion was lost.

Under Article 9. Mr. Morrell moved the adoption of the Article. It was then moved to take up Article 11 before voting on Mr. Morrell's motion and the motion was carried.

Under Article 11, on motion by Mr. Comer it was voted to pass over the Article. Mr. Morrell's motion was then carried and the provisions of Article 9 were adopted.

Under article 10. On motion by Mrs. Perkins it was voted to authorize the transfer of \$23,560 already raised by taxation in the fiscal year beginning July 1, 1954, for the payment of principal debt and interest on school addition bonds not issued, from surplus to Capital Reserve Fund.

Under Article 12. On motion by Mr. Gerry, as amended on motion of Mr. Morrell, it was voted that the district proceed to choose a building committee consisting of ten persons to advise with the school board in planning new elementary schools. Nominations were made from the floor and

William B. Hounsell	Gerland Stanley
George Tuttle	Alden Henderson
Margaret Colbath	Chester Lucy
Terry Nitschelm	Gertrude Shedd
Arlond Shea	Dorothy Fenton

were nominated.

It was voted that nominations cease. On motion of Mr. John Garland it was voted that the clerk cast one ballot bearing the names as above for the building committee. The ballot was cast and these ten persons were declared elected as a building committee.

Under Article 13. On motion of Mr. Grindle it was voted that the sum of \$25,000.00 be raised and appropriated for payment into the Capital Reserve Fund.

Under Article 14. On motion of Mr. Grindle it was voted Resolved: that any unencumbered surplus funds of the district remaining on hand on June 30, 1955 be transferred to the Capital Reserve Fund.

The polls were closed at 10:30 p.m. and proceeded to count the ballots.

Total ballots deposited	335

PROCEEDINGS IN SPECIAL SCHOOL DISTRICT MEETING, NOVEMBER 19, 1955

Agreeable to the foregoing Warrant, the Inhabitants of the Conway School District met at the auditorium of the Kennett High School at 2:00 p.m. on Saturday, November 19, 1955.

The meeting was called to order and the Warrant, Certificate of Posting, and Notary Certificate were read by Burnham B. Davis, Moderator, who announced that the members of the School Board and Clerk were to supervise the balloting and the counting of the ballots.

The authorization by the Superior Court for this Special Meeting was also read by the Moderator.

Under Article 1.

Moved by Mr. Chester Lucy, and duly seconded, that the District shall (a) authorize the following school construction and equipping: (1) The construction and equipment of a new elementary school in Conway Village, said school to contain ten classrooms, a multipurpose room, so-called, and other facilities and to be located on land situated in the rear of Kennett High School and known as the Kennett Company field, and the acquisition of land therefore; (2) the construction and equipment of a new elementary school in North Conway Village, said school to contain ten classrooms, a multipurpose room and other facilities, and to be located on land lying easterly of Main Street and known as the Mason property, and the acquisition of land therefor:

(b) raise and appropriate the sum of \$532,600.00 for the foregoing purposes:

(c) borrow in the name of the District by the issue of serial notes or bonds in accordance with the provisions of the Municipal Finance Act and amendments thereto and any other statutes thereto enabling, the sum of \$395,000.00 in order to defray a part of the cost of the foregoing, and to authorize the School Board to determine the time and place of payment and rate of interest on such notes and bonds, and to do whatever may be necessary to the issuance thereof:

(d) finance the balance of said appropriation by the use of \$137,600.00 from the accumulated Capital Reserve Fund and authorize and direct the Trustees of Trust Funds to pay over said sum of \$137,600.00 from said accumulated Capital Reserve Fund to the School Board as agents for the District to be expended for the aforesaid purposes, and:

(e) authorize the School Board to do all things necessary or convenient to carry into effect the foregoing, including, without limitation, the employment of architects and engineers, the execution

in the name of the District of a contract or contracts for the construction of said new elementary schools and the purchase of equipment for the same, and the purchase or condemnation of land in the name of the District;

(f) instruct the Building Committee selected at the annual meeting of the District held on April 2, 1955, to work and advise with the School Board in the planning and construction of such new elementary schools, provided that final authority in all such matters shall remain vested in the School Board as required by law:

That is to say that the District shall adopt all the provisions of Article 1 as stated in the Warrant for this meeting.

Moved by Ralph L. Grindle, Jr., and duly seconded, that voting on Article 1 be by printed ballot and by check list and that the polls remain open from 2:00 p.m. to 8:00 p.m. and for such further time as the meeting shall determine. Mr. Fred Wiggan moved to amend the motion by striking out the words "and for such further time as the meeting shall determine" which motion was seconded. Upon a vote being taken the amendment was lost. A vote being taken on Mr. Grindle's motion, the motion was carried.

At 8:00 p.m. the polls were declared closed and the ballots being counted, there was a total cast of 824.

Yes 552.

No 272

and Mr Lucy's motion was declared carried.

Under Article 2.

Moved by Mr. Ralph Grindle, Jr., and duly seconded that the District authorize the School Board to make application for and to receive in the name of the District, such advances, grants-in-aid or other funds for educational purposes, including schoolhouse construction as may now or hereafter be forthcoming from the United States or the State of New Hampshire or any agencies thereof. A vote being taken the motion was carried.

Under Article 3.

Voted that a rising vote of thanks be extended the Building Committee for the work accomplished.

Voted to adjourn.

Neil C. Cates,
Clerk

AUDITORS' CERTIFICATE

This is to certify that we have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Conway of which the above is a true summary for the fiscal year ending June 30, 1955, and find them correct in all respects.

CHESTER R. LUCY
DAVID B. SCHURMAN
Auditors

July 24, 1955

Report of Superintendent

To the School Board and Citizens of Conway:

It is a pleasure to report the most satisfactory progress that is being made on our new school buildings. Since the Special School District Meeting, held in November (the record of which is printed elsewhere in this report) the school board and school building committee have held meetings averaging once each week. As this is written, these things have been accomplished.

1. The land has been purchased for each of the schools.
2. The bonds have been sold at a rate of 2.7 which is slightly less than was budgeted.
3. Final plans and specifications for each of the buildings have been approved.
4. Bids will go out no later than the last of February.

Since the normal period required for construction of buildings of this size is approximately eight to ten months, we may, with favorable conditions, expect to occupy the new schools by mid-winter of 1957. It will be necessary to have double sessions in the Conway first grade until the new classrooms are available.

Following are the minor repairs made last summer on Kennett High School:

1. The gymnasium floor was sanded and refinished.
2. The east wing of the building was waterproofed and repointed.
3. Approximately one-fifth of the interior of the building was repainted.
4. A partition was built to divide the large laboratory room into a classroom and laboratory.
5. The cafeteria was partitioned to enable its use as a study hall.
6. New incandescent lighting fixtures were installed in the cafeteria and the agricultural shop.

The usual minor repair program was carried out in the elementary schools.

The Pine Tree School was the recipient of a very generous gift of playground equipment.

In August, 1955, the engineer representing the company carrying our fire insurance made the annual inspection of boilers. He declared the Pine Tree and Conway Village boilers unsafe for continued use. These were replaced with automatic oil heating equipment. In North Conway we had to re-tube the boiler.

Although the total school budget has increased by \$42,000 the district assessment (amount raised by taxes) increased by approximately \$30,000, as follows:

- \$14,000 — teachers' salary raises, including the salary of an additional elementary teacher.
- \$2,000 — transportation, double sessions in first grade, increased enrollment.
- \$3,000 — special activities — support of High School Activity program.
- \$2,000 — school lunch — the total amount of \$5,000 is reported under receipts so actually this is an in and out expenditure.
- \$1,600 — insurance on our new buildings.
- \$4,000 — contingency fund — this was increased due to the realization that with the two new buildings there will undoubtedly be unforeseen expenses and operating costs.
- \$6,000 — new buildings — this includes the difference between the \$25,000 Capital Reserve Fund of last year and the interest and principal payment on the new schools.
- \$2,800 — additions and improvements to property — this includes two 3,000 gallon oil tanks for the Pine Tree and Conway Elementary Schools, and the building of a new road at Kennett High School.

In March we will engage in an extensive testing program that will include mental maturity tests (I.Q.) and achievement tests. These will be given in grades one through eight. The New Hampshire State Department of Education has made National Forest Reserve funds available for this program.

The teacher shortage continues in all areas but is particularly critical in the sciences.

We have found it difficult for the last two years to fill vacancies in the science department at Kennett High School.

Realizing the difficulty we were having, one of Conway's public-spirited citizens, and a very good friend of our schools, established a fellowship for our science teachers. This provides funds for advanced study at any college in the country during summer session. This program was the influencing factor in obtaining one of our science teachers, and the enthusiasm and knowledge that the teacher will bring back to our school will do much to improve instruction in the sciences.

REPORT OF THE SCHOOL NURSE

1954-1955

The School Health Program is designed to raise the health standard of all pupils; to discover and correct, as far as possible, the development of defects; to dispel a child's fear of dentist and doctor examinations and treatment; to help parents to know where they can go for desired help outside the community, and to make parents more health conscious.

The physical examination program which was started two years ago by a health committee composed of the doctors, members of the hospital staff, school personnel, and lay people, was continued again this year. All pupils of grades one, four, seven, and ten were eligible to go to the hospital for an examination. This included a check of a pupil's weight, height, urinalysis, and a blood test for hemoglobin. The doctor checked each pupil's heart, glands, chest, throat, feet, abdomen, posture, and a possibility of hernia. The teeth and mouth were also checked by a dentist.

Three hundred and thirty-three pupils took part in the program and a report of each examination was sent to the parent by mail. As a result of these physical and dental examinations, symptoms of 289 defects were noted. Twenty-one of these defects were immediately followed up by the school nurse, who advised the parents to consult with their family physician.

In addition, seventy pupils received a physical examination at Kennett High School by Dr. Charles Smith before they participated in sports.

In May the pupils are given the Patch Test for tuberculosis. If any possible reaction is evident, or if pupils have come in contact with people who have the disease, a chest x-ray is taken.

Our school program is greatly assisted by the State Department of Health Clinics. The number of pupils that went to the Clinics during the year are:

Triple Toxoid	57	Guidance and Speech	4
Smallpox Vaccine	5	Orthopedic	23
Salk Vaccine	118	Sight Program	15

The Dental Program was carried on more extensively because parents of children participating in the program and various organizations in the town sent in donations. The dentist gave one morning a week, at greatly reduced rates, while the funds lasted. As a result of this and the addition of the two new dentists, who have come to the community, the percentage of dental corrections has jumped from 35% to 67% during the year.

I want to take this opportunity of expressing my appreciation to everyone who has helped to make this program possible.

Respectfully submitted,

JULIA T. COX, R.N.

REPORT OF CIVIL DEFENSE

February 13, 1956

Civil Defense in the Town of Conway has many and varied jobs to perform during time of disaster. All the work is done by volunteers who have done a magnificent job in organizing an office which would be ready if a Civil Defense Emergency were declared by the Governor. The registering, feeding, housing and clothing of evacuees who would come to us from other areas has been arranged. Radio communications within the town and with Concord are ready to operate at a moment's notice. The wardens are being organized to give a nearly complete coverage, but many men are still needed. Various departments have openings for volunteers, especially in the Ground Observer Corps.

In the village of Conway the Air Forces would like to have a permanent observation post established. A few diligent workers have reported planes day and night from their own homes and have been recognized by the Air Forces for their services.

In North Conway the Cranmore Skimobiles employees act as observers on a 24-hour basis, and have performed this service to the community since the beginning of World War II. On December 18, 1955, they were given the Distinguished Achievement Award and the Post of the Month Award by the 32nd Air Defense Command.

Although the operation of this office costs very little, it is necessary to have funds available to meet any emergency that might arise. Last year \$600 was appropriated for Civil Defense, with a majority of it to be used for the maintenance of two Ground Observer posts in the Town of Conway. The Cranmore Skimobiles volunteered to continue its long and faithful service without charge for maintenance of same. The second post never materialized as there were not enough volunteers to man it. This coming year may see the operation of a permanent post in Conway with a greater number of public-spirited citizens signing up to do this important work in our national defense.

An appropriation of \$300 will be sufficient to handle the ordinary administrative expenses for the ensuing year.

I wish to thank all those who have helped in Civil Defense activities in the past year.

ROBERT JOHNSON

Civil Defense Director
